

Deniz Örnek

Data analyst

COVER LETTER | Data Analyst

Dear Hiring Team,

I am applying for your Data Analyst position. My reporting experience at Örnek Perakende aligns with the sales reporting, SQL, and data checking responsibilities in the posting.

From June 2022 to August 2026, I prepared weekly Excel reports used by the sales team. I extracted reporting data using SQL and checked its accuracy. I also created a Power BI dashboard showing store-level sales.

I would like to contribute to your reporting work through my statistics degree and experience in these tasks. Thank you for considering my application.

Kind regards,

Deniz Örnek
